

## **Remote Broadcast**

We thank Medical Education Resources, Inc. (MER.org) for providing their infrastructure, staff and expertise to CPS, allowing us to present live streaming of each lecture of our conference. They will also archive and make available each of the lectures for 7 days following the conference to allow review or viewing completion for educational and CME purposes. The virtual and archive review options will open up attendance for those with scheduling conflicts or travel limitations.

We hope that the virtual conference registration option will also promote participation by members of our out-of-state, collaborating societies, Pacific Spine and Pain Society (Annual Meeting October 3-5, 2024 at Pendry Newport Beach, Newport Beach, CA) and Texas Pain Society (Annual Meeting October 25-27, 2024 at Renaissance Dallas Hotel, Dallas TX).
